SUMMARY

Full Stack Developer with 3 years of experience building scalable web apps using JavaScript, React, Next.js, Node.js and Express.js. Skilled in debugging and component-based architecture. Active open-source contributor and Linux power user with deep system knowledge. Recognized on AskUbuntu with 23K+ reputation.

SKILLS

Languages & Frameworks	JavaScript, React, Next.js, Node.js, Express.js
Frontend	HTML5, CSS3, Tailwind CSS
Backend	REST APIs, Node.js, Express.js
Version Control	Git, GitHub, GitLab
Tools	VS Code, Linux, Bash, Postman, ESLint
Other	Gnome Shell, GTK, GJS, Agile, Code Review

EXPERIENCE

Manuh Technologies Visakhapatnam, Remote
Software Engineer Apr 2025 – Present

- Collaborated with U.S. developers to analyze requirements and plan JIRA-assigned frontend tasks.
- Built and updated scalable ReactJS components to improve UI functionality and design consistency.
- Managed Git contributions by raising merge requests, applying code review feedback, and ensuring clean code.
- Partnered with QA to fix UI bugs and refine features based on testing feedback for optimal usability.

Freelance Remote
Code Reviewer, ReactJS & NextJS Developer, Software Engineer Feb 2023 – Apr 2025

- Reviewed and validated AI-generated code for quality, performance, and security.
- Refactored and upgraded an organizational chart application from React V16 to React V18.
- Led the frontend development of an e-commerce web application built with Next.js and Java Spring Boot.

EDUCATION

[Microverse Inc. San Francisco](#) Remote
Software Development Program – Full time Jun 2022 – Feb 2023

- Completed 1,500+ hours of remote, collaborative full-stack web development training.
- Built projects using JavaScript, React/Redux, Ruby on Rails, PostgreSQL, and Git.
- Practiced agile methodologies including pair programming and code reviews.

OPEN-SOURCE

Opensource Contributions Remote
Software Developer Jun 2018 – Present

[Gnome Shell Extensions](#)

- Developed and maintained GNOME Shell extensions using GJS and GTK to enhance Linux desktop UI.
- Automated extension setup and configuration using Bash scripting.

[Trusted User](#)

- Contributed 23,000+ reputation worth of solutions on AskUbuntu Stack Exchange.
